WHEREAS that the DSU did not communicate to the council members who were removed at the April 4th, 2018 council meeting and did not therefore inform them of the consequences of missing council meetings. And that the removed council members were not given a chance to defend themselves or provide reasons of their absences and that this increase the chances of a student being removed due to overwhelming health, family or personal problems that would make it difficult for them to communicate with the chair. And that being removed from council will be on public record and could potentially harm the reputations of the removed council members permanently.

BE IT RESOLVED THAT that all council members removed from office on April 4th, 2018 be immediately reinstated in their office.

BE IT FURTHER RESOLVED THAT the Chair issue a formal apology to the removed council members for failing to communicate with them of this action in advance and recklessly making a decision in order to reach quorum with no regards to the potential harm that would befall the removed council members.
