

VPFO Questionnaire – Liam Finnegan

1. Experience reading and analyzing financial statements and P&L statements:

- Manage my own investment portfolios
- Taken multiple commerce courses related – finance and accounting

Experience reading general ledgers

- As the DSU financial commissioner (FC) I have read multiple GLs when performing financial audits

2. I have created my own personal budget and have been able to manage my way through university with no student loans.

I have also been a sitting member of the DSU finance and budget committee where I have gained experience reading more complex budgets. As the FC I am partaking in budget revisions and budget consultations across campus, improving my budget knowledge.

3. As the FC I have read many bank reconciliations and ensured they are written properly. I as well have taken accounting courses that have exposed me to them.
4. My last internship, with Northwestel, on a daily basis I used SAP for accounting processes and investigative accounting.
5. If I am facing a challenge, I will try and find a solution by myself, see if I have the mental abilities to. And if I continue to face a wall, I will ask those I believe can help and hopefully learn from them for future issues.
